Subject: BAP: IAR response to comment document

Hi all, I have revised the BaP IAR response to comments (initially sent around prior to the IASD meeting) to look similar to what was done for other recent assessments (TMBs, Ammonia, and biphenyl).

Attached is a clean copy for your review.

Hi
Ammonia didn't have a lot of comments so I included TMBs also.

Hi guys, the template you gave me was for biphenyl. I wonder if ammonia would be a better template? If you have it, could you send my way?
